Dear Dr. Henny:

For years the dairy industry has monopolized the term "milk". There are now many different kinds of "milk" (my family drinks soy milk), and the dairy industry should not be allowed to monopolize this term. I am therefore writing to you to urge you to use your influence in the FDA to allow non-dairy beverages to be labeled as "milk". I ask also that the FDA require milk from cows to be labeled clearly as "cows milk".

Thank you for your consideration.
